

```
graph RL; main[main] --> computePotentialGradient[computePotentialGradient];
```

computePotentialGradient

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the left is shaded gray and contains the text 'computePotentialGradient'. The box on the right is white and contains the text 'main'. A blue arrow points from the 'main' box to the 'computePotentialGradient' box, indicating a call or flow from main to the function.
